# An hour before the exam

### An hour before the Exam

تمكن من مراجعة منهجك في ساعة واحدة قبل الامتحان

#### **Important Points**

أهم النقاط في المحور الأول

#### 1 Albert Lin and the archaeologists tools :

- Albert Lin is an explorer and archaeologist.
- 2. He uses different tools to explore archaeological sites without digging such as GPS and photographs from satellites and drones.
- 3. The archaeologists' tools save times, cost and effort.
- 4. GPR and Magnetometers locate things under the ground.

#### 2 Using of computer:

- 1. The computer is an electronic device for processing data.
- 2. We can use a computer to write documents, send emails, play games, edit or create data tables and browse the internet.
- 3. There are devices that are turned on and used via touch such as tablet.
  - 4. We divide computer hardware into input device such as keyboard, mouse, scanner, microphone, camera and output device such as screen, speaker, Braille terminal, speech synthesizer and printer.

### 3 Computer operating system :

- 1. CPU controls what and how data is processed, it processes data and converts it to useful information.
- 2. Operating system enables us to use our computer such as Windows and Android.

#### 4 Assistive technology:

- Assistive technology helps people of determination with tasks that they find difficult.
- 2. Albert Lin has a limb difference, he uses a prosthetic leg that enables him to move and explore new places.
- Stephen Hawking used assistive technology to help him communicate.
- 4. There are many types of assistive technology such as screen magnification, software, Hearing aids, Alternate communication software and speech synthesizer, sporting tools.

#### 5 ICT tools:

 ICT tools help to do a lot of tasks, research of information online and writing school reports using Microsoft Word.

- 2. When an app won't open, restart your computer and try again.
- 3. When the mouse cursor isn't working, make sure you connect the mouse cable to the correct place in the motherboard then restart your device.

### 6 ICT problems and solutions:

- 1. When you can't find file, check your downloads folder.
- 2. When your screen freezes, press and hold the "Ctrl", "Alt", and "Dell" buttons together.

### 7 Collecting, analyzing and graphic data:

- 1. You can collect data from a variety of sources such as books and articles, interviews, records, surveys and experiments.
- 2. When you analyze the data you've collected, you should review your findings and interpret what those findings mean.
- 3. Graphing Data compare different categories of information.

### **Important Definitions**

Graphing Data compare different categories of information.	
<b>Importan</b>	t <b>Definitions</b> أهم التعريفات في المحور الأول
Word	Definition
Ground Penetrating Radar (GPR)	This radar can discover objects buried underground.
Global Positioning System [GPS]	This is a way to find the location of something using satellites.
Magnetometer	This measures a magnetic field. It can find metal underground.
Keyboard	To type on and tell the computer what to do and write letters and numbers.
mouse / touch screen	We can move things easily with it and directional data.
speaker	To allow people to hear you, sound and music.
camera	For people to see you, images and videos.
scanner	Input text and images from paper.
screen	Shows us what we are doing and visual information: text, images and video.
speaker	To hear others and audio.
Braille terminal	Text in Braille for blind people.
Speech Synthesizer	- It is audio output device It changes the words into an artificial voice so people can hear what I want to say.

#### **TEL-MOASSER** An hour before the exam. - 4<sup>th</sup> prim (ICT)

Printer	Output text and images on paper.
CPU 1120	The central processing unit is a type of hardware, it controls what and data how is processed.
Screen magnification	It is type of assistive technology allows these with visually impaired to interact with computer.
Hearing aids	Hearing aids help people who have trouble hearings models can now to connected to a person's mobile devices.
Alternate communication software	Alternate communication software help people with speech and language disabilities communicate with others and some computer programs can turn text to speech and speech to text.
Graphing Data	Graphing Data compare different categories of information such as Bar graphs.

### **ICT** tools

أدوات وأجهزة مستخدمة في تكنولوچيا المعلومات

# -Archaeologists' tools

1 Locate things above the ground

GPS Satellites

2 Locate things under the ground

Magnetometers

# **Types of computers**

1. laptop

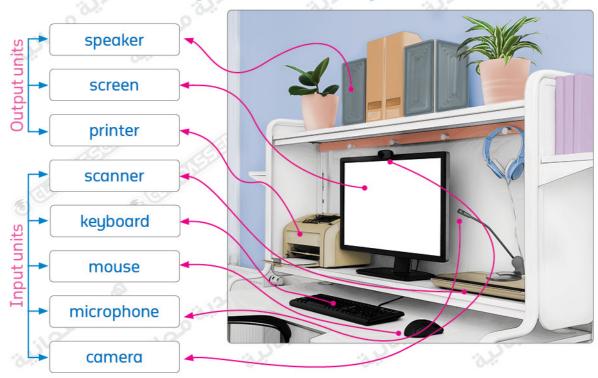

2. tablet

3. personal computer

# **Computer and its components**

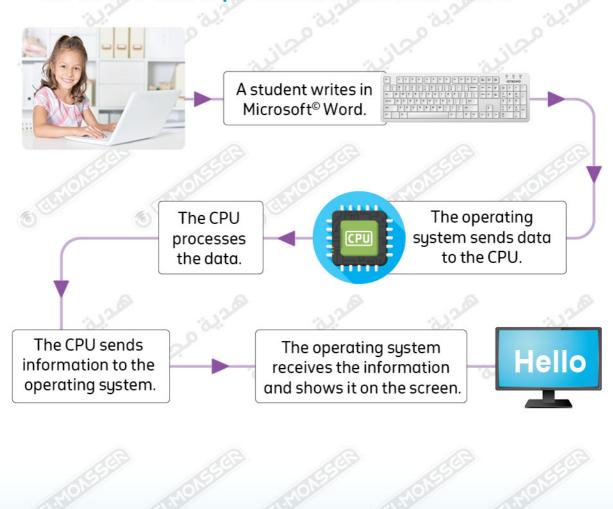

# **Input and Output devices**

# The diagram below shows how data is processed in Microsoft<sup>©</sup> Word.

### Some technological problems and solutions

بعض المشاكل التكنولوجية وحلولها.

#### Problem 1

An app won't open.

#### Solution

Restart your computer and try again.

#### Problem 2

The mouse cursor isn't working.

#### Solution

Make sure you connect the mouse cable to the correct place in the motherboard. It is best to restart your device.

#### Problem 3

You can't find a file.

#### Solution

Check your downloads folder.

#### Problem 4

Your screen freezes.

#### Solution

Press and hold the "Ctrl", "Alt", and "Del" buttons together

#### Problem 5

The keyboard isn't typing.

#### Solution -

Make sure you connect the keyboard cable to the correct place in the motherboard then restart your device.

# An hour before the Exam

تمكن من مراجعة منهجك في ساعة واحدة قبل الامتحان

#### **Important Points**

أهم النقاط في المحور الثاني

#### 1 Communicating online:

- There are many ways to communicate online, we can use computers, phones and tablets.
- People can communicate with each other using instant messaging emails direct messages and message forums.
- 3. Be careful, some people communicate online to steal personal information.
- Personal information includes your address' your name, and name of your school.

#### 2 Unsafe websites:

- 1. You can block the unkind person; that person cannot see your posts or contact you.
- 2. When you see inappropriate website content, you should leave the site and tell your teacher or a family member.
- 3. Don't share personal data online to avoid spam messages.
- 4. Think carefully before you download files, some files have viruses.

### 3 Posting online:

- When you tag someone, you identify that person in a post, photo, or video.
   Anyone who has access to your account can see the tag.
- 2. The tag provides a link to the person's profile. So it is important to make sure that the person you're tagging is OK with this.

#### 4 Crediting others and Respecting the law:

- When you're looking for information to post online or to include in a PowerPoint presentations it's important credit sources that provide you with information and let others know where the information you are sharing came from.
- 2. Whether you are posting online or researching topics be sure to respect the law.
- 3. Banned sites may publish inaccurate, immoral and harmful material.

#### 5 Searching safely and smartly:

- Choose browsers that warn users when they're about to enter an unsafe site or download a harmful app.
- 2. If you get a warning messages be sure to show your teacher or a family member and don't proceed to the site or with the download.

- 3. Some popular browsers have search engines set up just to children, they will only show results that are age-appropriate.
- 4. Choose child-friendly websites that include filters that help you avoid clicking on inappropriate videos.
- 5. To search smartly, you type longer phrases-not just a couple of words. This will help you get better results.

### 6 Online identity theft:

- 1. When you get stolen, they may have access to your social media accounts.
- 2. The Egyptian government is dedicate to protect you from online problems.
- 3. Online problems are common. You don't have to solve online problem on your own. Talk to your teacher or a family member about it.

#### **7** Creating strong passwords:

- 1. It is important to have a strong passwords. Your password shouldn't include your name or other personal details.
- Don't use the same password for all your accounts and use a password manager.

#### 8 Anti-Virus software:

• To be safe online, you should install anti-virus softwares on your devices.

#### 9 Digital reports, videos and posters :

- 1. Researchers and scientists prepare digital reports about the subject of their studies using various programs like PowerPoint or video.
- 2. You can make your presentation appear like a book include text, pictures and fun sound effects.
- 3. You can make your own video to present your research.
- 4. While creating a poster make sure that the text is large enough for others to read from a distance.

#### **Important Definitions**

أهم التعريفات في المحور الثاني

Word	Definition
Personal information	It includes your address, name and name of your school.
Spam	<ul> <li>Spam mail includes unwanted messages to advertise products or gather more information from you. The messages may be also include viruses.</li> <li>If an email includes an unfamiliar address, unknown links, or messages in ALL CAPITAL LETTERS, it might be spam.</li> </ul>
